

Problem Statement

REVENUE ANALYTICS INITIATIVE

ORGANIZATION

AtliQ Grands

INDUSTRY DOMAIN

Hospitality

BUSINESS FUNCTION

Revenue Management

PROJECT TYPE

Business Intelligence

Business Context

AtliQ Grands is a prestigious hospitality group operating multiple five-star properties across India. With two decades of established presence in the luxury and business hotel segment, the organization has built a reputation for excellence in guest services and premium accommodations. However, recent market dynamics have presented significant challenges to their competitive positioning.

Current Challenges

Market Share Erosion

Declining market position in luxury/business hotel category

Revenue Decline

Significant revenue loss impacting profitability

Competitive Pressure

Aggressive strategic moves from competitors

Decision-Making Gap

Ineffective management decisions due to lack of data-driven insights

Strategic Initiative

In response to these challenges, the Managing Director has mandated the integration of Business and Data Intelligence capabilities to recover market share and restore revenue growth. Given the absence of an in-house analytics team, the Revenue Management team has authorized the engagement of third-party data analytics expertise to extract actionable insights from historical operational data.

Your Role & Responsibilities

As the engaged Data Analyst, you will leverage provided historical data and stakeholder requirements to deliver comprehensive business intelligence solutions. Your deliverables will directly inform strategic decision-making at the executive level.

- 1 Metric Development:** Construct all performance metrics as specified in the provided metric list, ensuring accurate calculation methodologies and alignment with industry standards.
- 2 Dashboard Creation:** Design and develop an interactive dashboard that adheres to the mock-up specifications provided by stakeholders, enabling intuitive data exploration and real-time performance monitoring.
- 3 Advanced Analytics:** Identify and communicate additional insights beyond the prescribed metrics and dashboard elements, uncovering hidden patterns, trends, and opportunities that can drive competitive advantage.

Expected Outcomes

Your analysis will empower AtliQ Grands leadership with data-driven intelligence to make informed decisions regarding pricing strategies, occupancy optimization, revenue maximization, and competitive positioning. The insights generated will serve as the foundation for the organization's market recovery strategy and long-term growth trajectory.
